

WADI SOMA

SOMABAY

Mother nature was unbelievably generous with a sun-kissed peninsula floating on the red sea's gleaming coastline. Here is where exquisite ribbons of sand are backed by lush green golf views and lapped by turquoise waters sleeping at the foot of red mountain peaks. Captivating beneath the water as above, somabay is one of the few places on earth that does beach-front luxury so effortlessly.

WADI SOMA

Nestled on 10 million square meters of lush land, life at Somabay is where fantasy-scapes follow you wherever you go and sun-drenched activities take infinite elevating forms. Expertly conceived to evoke a laid-back European feel, every aspect of the heavenly development is sympathetic to nature, painting colorful experiences around its lively marina and soulsoothing jetty, so you can take recharge or decelerate. Home to 5 luxury resort hotels and a signature portfolio of residential properties, Somabay's one-of-a-kind settings with its full complement of premium amenities are the stage for incomparable experiences alongside friends and family.

Inspired by the 15th century Japanese philosophy “wabi sabi”, wadi soma is harmoniously designed to break-free from modern dominant trends that heavily rely on lavishness, as well as over-ornamentation to instead glorify the idea of finding real beauty in imperfection.

The destination grounds residents to the site’s natural elements, allowing them to forge a deep connection with mother earth while enjoying the simple pleasures of life, raw, real but most importantly, authentically to enrich every aspect of Daily life.

Wabi-sabi is a guiding principle of existence that focuses on accepting things as they are, rather than spending time wishing for something better. It is the power to live in the Now, appreciate beauty in its most authentic form while realizing that life is purely a reflection of nature.

W A D I S O M A

The distinctive topography of Somabay is the best inspiration an architect can ever find. The architecture at Wadi Soma flawlessly mimics and blends into this very special location. The signature lodges are inspired by the sharp prism silhouette of Safaga Mountain whilst the stunning courtyards are inspired by the scattered rock formations in the Soma Desert. The front villas are embedded into the rocks just as the coves are distinctive to this peninsula beach.

As the architects of Wadi Soma, we tried to be part of this nature through the geometry, materials, and colors. We wanted to create a project worthy of this holistic site.
